refrigerated goods

frozen goods

Casing — polyamide casing avoids the oxidation process and ensures the safety of the product

Substrate — in this package, products are easy to carry and convenient to lay out on a showcase while maintaining an attractive appearance and excellent taste.

MAP — modified-atmosphere packaging (MAP) perfectly preserves the quality of the product and increases the shelf life. The gas used is safe for human health.

Package — a durable polyethylene bag perfectly protects the chicken carcass from various kinds of influences during transportation and storage of products.

Vacuum — vacuum packaging allows you to keep the freshness and juiciness of the product for a long time.

Corrugation — corrugated box, transport packaging made of cardboard.
